

DUAL-LINE LNX HOISTS

Sealed Cast Aluminum Shell

- Provides strength and durability
- · Keeps moisture and debris out of electrical and mechanical housing
- Ergonomic design with handles and grips for ease of transport

Easy Maintenance

NEW

- Easy to operate, easy to clean
- · Annual maintenance takes less than one hour
- Fewer wear parts makes total cost of ownership lower

Safety Features

- Dual-line design provides a second safety line, tethering rider to the stage, keeping hands free to work
- LNX has an internal over-speed device that will automatically reset by going in the upward direction.
- Non-Powered control descent

Removable electro-box

- Five quick connect plugs plus ground strap to remove electro-box
- Voltage meter
- Capable of adding overload protection, hour meter, and limit switches

Easy-grip Traction

- Solid sheave traction mechanism grips wire rope for ascent and descent using innovative roller system.
- Pressure sensitive traction sheave is extremely easy on wire rope
- Rollers and guide ring easy to inspect and replace

LNX SPECIFICATIONS			
Lifting Capacity (Cap)	750, 1000, 1250, or 1500	Emergency Stop	Yes
Voltage	185 to 220 Volts	Rope Easily Accessed	Yes
Durable Outer Shell	Cast Aluminium	Non-Powered Control Descent	Yes
Phase	Single and Three	Manual Ascent Handle Attached	Yes
Hertz	60	Overspeed Indicator	Yes
