

Bee Access Products

MANUFACTURER'S CERTIFICATE

March 18, 2012

Customer: Scaffold Service, Inc.
2525 Wabash Ave.
St. Paul, MN 55114

Product: Tieback Hook for Flat Roof

Part Number: 920245

Construction: High strength aluminum

Load Capacity: 1500 lb, incl. 4:1 safety factor

Description: The Tieback Hook is designed to be used as a tieback for suspended scaffolding rigging equipment on flat roofs. It is also approved as an anchorage for lifelines (5000 lb ultimate load).

Bee Access Products hereby declares that the described product is within the scope of the approved load limits. The product has been designed and tested with a 4:1 safety factor based on the working load and meets or exceeds OSHA standards 1910.28 and 1926.451, as well as ANSI standard 10.8 pertaining to single and multiple point suspended scaffolding.

I hereby certify that the above information is correct,

Tom DeJong
Vice President
